Abstract: The U.S. Department of Education has commissioned Westat to independently evaluate the PDP program. This evaluation is divided into two studies, one focusing on the National Centers, the other on the Institutes of Higher Education (IHEs). The Study of the National Centers will examine the materials and services that have been developed and provided by the Centers as well as characteristics of the consumers. In addition, the panel of experts will rate the quality of a sample of products and services from each Center along three dimensions: adherence to scientifically based standards, relevance to the field, and usefulness. The IHE Study will collect data through a survey of proposed Project Directors of funded and non-funded projects, as well as a collection of materials documenting improvement of funded courses of study. It will address (a) status; (b) focus; (c) entry and completion requirements; (d) grant support for students; (e) changes to the course of study since the time of the application; (f) enrollment and completion information; (g) standardized exit exam scores; (g) allocation of PDP grant funds; and (h) information about formal data collection from program.
